A Choice Yesterday, A demand today

Welcome to J K Polymer Industries.

J K Polymer Industries is one of the largest manufacturers of PVC & PP pipe fittings with manufacturing location at Delhi, India. This company has experienced growth with innovation, creativity and sincerity as the major attributes of its work force. The entire team of J K Polymer Industries makes their every attempt towards perfection with due care and concern for its customers. Transforming challenges into opportunities has been the hallmark of this entity since its inception in 1999. We have a well diversified infrastructure conglomerate with a formidable presence in the field of irrigation.

ABOUT US:

J K Polymer Industries is one of the pioneers to introduce PVC & PP pipe fittings in Delhi. This company is both a manufacturer as well as supplier of best quality PVC & PP pipe fittings in India. We claim ourselves as one of the leading producer of PVC & PP pipe fittings in India.

All our products are manufactured from GRADE A raw materials and are specifically designed according to the need of our customers. Our products are suitable enough both for plumbing and irrigation systems. We know very well that the operating temperature range of pipe fittings is 0° Celsius to 60° Celsius, PVC pipe fittings are assembled by solvent cement joints and PP pipe fittings by epoxy adhesive. By taking into account all these scientific measurements we design our products which meet the global standard in quality as well as durability.

J K brand pipe fittings are available in vast range and in various materials. We want our customers to experience quality service and excellent products in trade price. Our services are designed to meet all the expectations of our customers in the best possible way. We have the piping system- that can be installed on surface, buried, slip lined, trench less, floating and sub merged. J K Brand pipe fittings can be used in fluids transport include, for lifting, transporting, conveying, distributing, disposing or tapping of water, water (drainage and sewage).

J K brand pipe fittings are manufactured in the most modern manufacturing and testing facility. Due to our sincere effort and continuous striving J K Polymer Industries have become a renowned polymer processor in India.

The continuous efforts of J K Polymer Industries to soar high are blended with its ongoing research and development work. The successful R&D work has brought the company a lot of recognition for their professional performance. The R&D laboratory of J K Polymer Industries is well furnished and well equipped with many sophisticated equipments.

J K Polymer Industries assure you to avail the best services, prompt delivery and online order facility. Hence, we have a overwhelming support from all the dealers we joined hands with from day one. This all is due to our commitments to quality, punctuality and fair dealings.

To strive for excellence in every activity we undertake, as we contribute in nation building through our committed participation in agriculture sector of the country, utilizing the available resources optimally with due respect, care and love for the environment.
